SUBJECT

Requirement for WASHFAX Service - National

Photographic Interpretation Center

REFERENCE

NCS document "WASHFAX Mid-range Planning

Guidance (FY70-74)" dated 3 November 1969

1. A requirement exists for an additional Central Intelligence Agency LDX terminal at Washington, This terminal is required to provide the National Photographic Interpretation Center (NPIC) with WASHFAX service. Since NPIC is a part of CIA, this requirement has been validated by, and is levied as a CIA requirement.

25X1

- 2. The requirement is for service under WASHFAX Phase II configuration, and for future service under the Phase III Plan. Economy factors preclude inclusion of this requirement in the Phase I system. One terminal and access line will suffice for volume of usage presently foreseen. Security requirements for this installation have been met. Informal coordination among WPCC elements indicates that a significant community of interest exists. The Agency is prepared to fund proportionate costs of this installation. It is desired that service be provided concurrent with activation of WASHFAX Phase II switched service.
- Early advice of ability to accept this requirement will be appreciated.
